

Upstairs Laundry Room and Flooring

If you are not aware our newly renovated downstairs laundry room is up and running. New washers and dryers are being used to make your clothes clean and fresh. Please feel free to go and take a peek. We are getting lots of compliments and excitement for all the new components at our beloved building. If you have not yet had a chance to see the renovations happening in our back patio/garden area, you should go take a peek. New plants and trees are slowly being added and soon our back patio will be ready for lounging.

The upstairs laundry room renovation will start next week on Wednesday April 25th so expect this room to be closed for the week. Downstairs laundry room is up and running and available for use. Installation of the new floors has begun and should be finishing up, in the upstairs hallways, by the end of next week if not sooner. Courtyard renovations are scheduled to begin at the end of the month, tentatively April 30th. Every attempt to keep this work as expedient as possible and with the least amount of inconvenience is being made but we do anticipate there may be some temporary noise during the demolition.

As always my door is open and I welcome any questions or concerns you have during this time.
